*Lara- Which one of the hotels are you most likely to pick?

*Carter- ASG has not worked with clubs for 2 semesters and that is has been lacking and this is just the beginning.

*Ragudo- What part had ICC taken on clubs?

*Carter-2 Semesters have worked hard and is more involved. Different events and this is just a learning experience.

*Dixon- ASG has always put \$200 dollars, matching funds proposal for clubs (loves the idea of the conference) take QSA members have participation in it and maybe the proposal can be more concise. 3 options move to just vote on 1 of the hotels.

* Foster- Supports it and wants the opportunity to get involved to get this out to the students to let them know what this is. (likes the idea)

* Carter- Will bring more information next time on it.

* Snuggs- In perspective we don't have the funds, if we pass expenses for certain groups. We can't just give one group money and not the others. That is just separating one group from all the others.

* Del Toro- Can you let the audience (students) more about the clubs? If we have no student government to go to there would be no guidance and support from other students that would help.

* Turner- \$500 dollars then we can match.
