

A few hints for working with these Video Tutorials:

1. These tutorials are evolving. The early tutorials were not labeled (titled) clearly. When you see a box at the top of the first page it means that this title was added after filming.

Video Topic Titles added for clarity will be found in a box at the top of the first page for a particular topic.

2. Refer to the course syllabus to know the "Due Date" for watching each video.
3. For most lecture sessions, you will need to watch more than one video.
4. It is VERY important to watch the videos and actively participate in the process by taking notes and trying to solve the practice problems independently before watching the answer on the video.
5. During "Lecture" we will work in groups to practice applying the concepts from the videos. Lecture will be a more enjoyable and helpful experience, IF you arrive prepared.

Video Tutorial Table of Contents

The tutorial lecture outlines are arranged in the following order.

Measurement Part 1: Significant Figures

Measurement Part 2: Scientific Notation

Measurement Part 3: Converting Between Units

Measurement Part 4: Dosage Calculations

Atoms & Elements Part 1: Atomic Structure – Isotopes & the Nucleus

Atoms & elements Part 2: Valence Electrons and the Octet Rule

Compounds Part 1: Ionic Compounds – Formula Units & Nomenclature

Compounds Part 2: Lewis Structures & Molecular Cpds

Shapes and Interactions Part 1: Shapes of Molecules

Shapes & Interactions Part 2: Electronegativity and Molecular Polarity

Shapes & Interactions Part 3: Intermolecular Forces (IMFs)

Shapes & Interactions Part 4: IMFs and Solutions

Solutions & Membranes Part 1: Solution Concentrations

Solutions & Membranes Part 2: Membranes, Osmosis, & Tonicity

Solutions & Membranes Part 3: Dilution Calculations

Solids, Liquids & Gases Part 1: Temperature

Solids, Liquids & Gases Part 2: Energy & Phase Changes

Solids, Liquids & Gases Part 3: IMFs & Boiling Points

Solids, Liquids & Gases Part 4: Pressure

Solids, Liquids & Gases Part 5: Gas Laws

Hydrocarbons Part 1: Structural Formulas–Converting btwn Lewis, Skeletal-line, & Condensed

Hydrocarbons Part 2 – Recognizing Isomers: Conformers, Structural, and Geometric

Hydrocarbons Part 3 – IUPAC Nomenclature of Alkanes, Alkenes, Alkynes, and Benzenes

Hydrocarbons Part 4 – Structure and IUPAC Nomenclature Review

Organic Functional Groups Part 1: Introduction

Organic Functional Groups Part 2: IUPAC Nomenclature

Organic Functional Groups Part 3: Esters, Thioesters, & Phosphoesters

Organic Functional Groups Part 4: Naming Ethers, Phenols, & Esters

Organic Functional Groups Part 5: IMFs and H₂O Solubility

Organic Functional Groups Part 6: IMFs and Boiling Points

Organic Functional Groups Part 7: Combustion Reactions

Organic Functional Groups Part 8: Carboxylic Acids: Acid-Base Chemistry & H₂O Solubility

Organic Functional Groups Part 9: Amines: Acid-Base Chemistry & H₂O Solubility

Chemical Reaction Part 1: Balancing Reactions

Chemical Reaction Part 2: Collision Theory

Chemical Reaction Part 3: Thermodynamics (Reaction Energy)

Chemical Reaction Part 4: Kinetics (Reaction Rates)

Acid & Bases Part 1: Intro with Predicting the Products
Acid & Bases Part 2: Inorganic and Organic Acid Nomenclature
Acid & Bases Part 3: Bronsted-Lowry Definition & Conjugate Acid Base Pairs
Acid & Bases Part 4: Equilibrium Rxns & Le Chatlier's Principle
Acid & Bases Part 5: K_w $[H_3O^+]$ & $[OH^-]$ Calcs
Acid & Bases Part 6: pH Calculations
Acid & Bases Part 7: Buffers
Acid & Bases Part 8: Effects of Cellular pH on Carboxylic Acids, Amines & Phosphates
Acid & Bases Part 9: Serial Dilution and pH

Rxns of Organic Functional Grps Part 1: Intro & Acid Base Review
Rxns of Organic Functional Grps Part 2: Redox Intro
Rxns of Organic Functional Grps Part 3: Redox of Alcohols & Carbonyls
Rxns of Organic Functional Grps Part 4: Hydration-Dehydration Rxns
Rxns of Organic Functional Grps Part 5: Acyl Transfer Rxns
Rxns of Organic Functional Grps Part 6: Phosphoryl Grp Transfer Rxns
Rxns of Organic Functional Grps Part 7: Coenzymes & Biochemical Redox Rxns

Introduction to Proteins, Carbohydrates, Lipids and Bioenergetics
Proteins and Enzymes Part 1: Amino Acids
Proteins and Enzymes Part 2: Chirality and Amino Acids
Proteins and Enzymes Part 3: Overview of Protein Structure
Proteins and Enzymes Part 4: The Primary Structure of Proteins
Proteins and Enzymes Part 5: Secondary Structure of Proteins
Proteins and Enzymes Part 6: Tertiary Structure of Proteins
Proteins and Enzymes Part 7: Quaternary Structure of Proteins
Proteins and Enzymes Part 8: Introduction to Enzymes
Proteins and Enzymes Part 9: Enzyme Inhibition
Proteins and Enzymes Part 10: Enzyme Classification & Reaction Catalysts
Proteins and Enzymes Part 11: Enzyme Cofactors

Carbohydrates Part 1: introduction and Monosaccharides
Carbohydrates Part 2: Stereochemistry of Monosaccharides
Carbohydrates Part 3: Disaccharides and Glycosidic Bonds
Carbohydrates Part 4: Polysaccharides
Carbohydrates Part 5: Catabolism – Hydrolysis and Glycolysis
Carbohydrates Part 6: Other Metabolic Roles of Glucose & Ketone Bodies

Lipids Part 1: Fatty Acids, Fats, and Oils
Lipids Part 2: Membrane Lipids
Lipids Part 3: Transport across Cell Membranes
Lipids Part 4: Cholesterol
Lipids Part 5: Eicosanoids
Lipids Part 6: Bile Salts and Lipoproteins
Lipids Part 7: Fat Catabolism

Metabolism and Bioenergetics Part 1: Intro and Acetyl CoA
Metabolism and Bioenergetics Part 2: The Citric Acid Cycle
Metabolism and Bioenergetics Part 3: Electron Transport Chain and Oxidative Phosphorylation
Metabolism and Bioenergetics Part 4: Reduced Coenzymes and ATP
Metabolism and Bioenergetics Part 5: Reaction Energies

Nucleic Acids Part 1: Intro and Nucleotides
Nucleic Acids Part 2: DNA
Nucleic Acids Part 3: RNA and Protein Synthesis
Nucleic Acids Part 4: Genetic Mutations

Nuclear Chemistry Part 1: Nuclear Structure Review and Intro to Nuclear Chemistry
Nuclear Chemistry Part 2: Nuclear Reactions
Nuclear Chemistry Part 3: Half Lives
Nuclear Chemistry Part 4: Biological Effects of Ionizing Radiation
Nuclear Chemistry Part 5: Nuclear Medicine
Nuclear Chemistry Part 6: Fusion vs Fission
